

IPIC2019 - International Primary Immunodeficiencies Congress

Focus on Diagnosis and Clinical Care

Date: 6-8 November 2019

Venue: Marriott Auditorium Hotel – Madrid, Spain

www.IPIC2019.com

IPIC2019: IPOPI is hosting the 4th edition of the International Primary Immunodeficiencies Congress -IPIC2019 - in the lively city of Madrid, Spain, on 6-8 November 2019.

Congress programme: The congress programme will feature world-renowned experts in the field of PID as well as other key stakeholders who will share their invaluable experience and their unique perspectives on major clinical developments and advances in the field. The programme will seek to engage our international delegates through interactive sessions and topics will include, among others: Management of respiratory issues in PID/Novel PID diagnostics/Management of complex PID cases/Regional clinical priorities/Gene therapy developments/Managing PID in adulthood and old age/Ethical issues around PID care and diagnosis/Perspectives on future care and diagnosis developments

Abstracts for poster presentation: IPIC2019 welcomes the submission of abstracts for original contributions to the field of clinical care of primary immunodeficiencies. The 3 best posters will receive an award and the opportunity to give an oral presentation of their posters in a dedicated congress session.

Background information: IPIC2019 is an international scientific meeting focusing on the diagnosis and clinical management of Primary Immunodeficiencies (PIDs). In 2017, over 90% of clinicians applying for CME accreditation had indicated that they will implement what they learned at the congress in their clinical practise.

Why Madrid: Madrid is the capital city of Spain, the third largest city in the European Union as well as the political and cultural centre of the country. It offers a myriad of cultural attractions and activities and is often described as the 'real city that never sleeps'. Madrid Barajas international airport is also the largest airport in Europe and one of its busiest offering excellent connections to all world regions.
